Ground Handling Wheels Pin

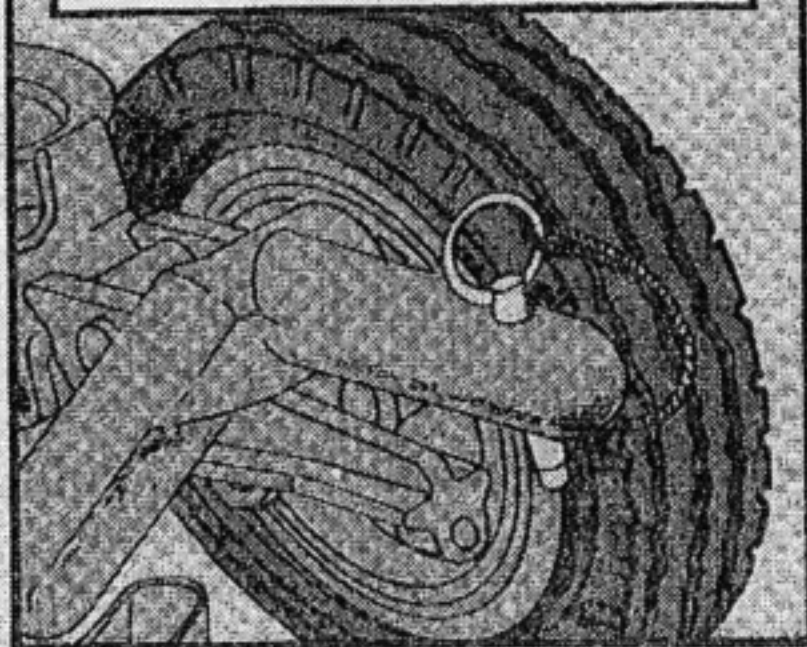

Never operate the Kiowa's ground handling wheels unless the quick release pin that holds the handle is in place.

Ground handling wheels can't be safely operated without a pin to keep the handle from slipping sideways or even off.

**Quick release pin
holds handle in place**

**Pin missing? Order a new one
with NSN 5340-00-185-1411**

Until you get it, use another pin to hold the handle in place.
