

*Dear Editor,*

*The trouble with those cloth straps used for locking the OH-58A/C rear doors is that they stretch out of shape—making them useless!*

*You can make a more durable strap, in accordance with Fig D-97 in TM 55-1520-228-23 (Aug 78). Just use nylon webbing, P/N 209-001-138-7, NSN 8305-00-267-3009.*

*SGT Richard L. Taylor  
Ft. Hood, TX*

**A better strap**

**(Ed Note—right you are!)**
