

OH-58A/C Particle Separator . . .

# Announcing a New One

When your new separator arrives, don't replace the educator nozzles. ASAM 082200Z Apr 91 (TB 1-1520-228-20-61) doesn't apply to the new separator. However, the recurring inspection and repair procedures in TM 55-1520-228-23-1 do.

Use your old separator, NSN 2945-00-109-2364 (NSN 2945-01-334-7116 when TB 1-1520-228-20-61 was applied), until you get a replacement.

Toss old unserviceable separators.
