

NO KIDDING --
YOU USE "JELLEY"
TO PREVENT JAM --

NO SOAP -- "JELLEY"

REALLY?
APPLE OR
GRAPE?

Surgical soap is out, Kiowa mechs, when it comes to coating the tail rotor drive shaft before installation. Para 7-26 of TM 55-1520-228-20 will be updated.

Clean the shaft and coat it, along with the inside of the collars, with lubricant, KY Jelley, NSN 6505-00-153-8809.
