

There is no Intermediate inspection, and the Periodic is 300 hours. So, give your slim-jim a good going over on the Daily.

**NOSE SECTION**

**PITOT TUBE** — Dirty, plugged?

**LOG BOOK** — Look for recorded discrepancies.

**NOSE EXTERIOR** — Loose rivets? Cracks in skin?

**WINDSHIELDS, WINDOWS** — Clean? Cracked? Never use solvents to clean transparent plastic or you'll scratch it for real. Use water or plastic polish. Stop-drill cracks according to the poop in the organizational maintenance pub.

**NOSE INTERIOR** — Eye the area for rags, clothing, tools and other foreign objects. Stow 'em in the right place. Look for damaged equipment, loose connections.
